

User Manual

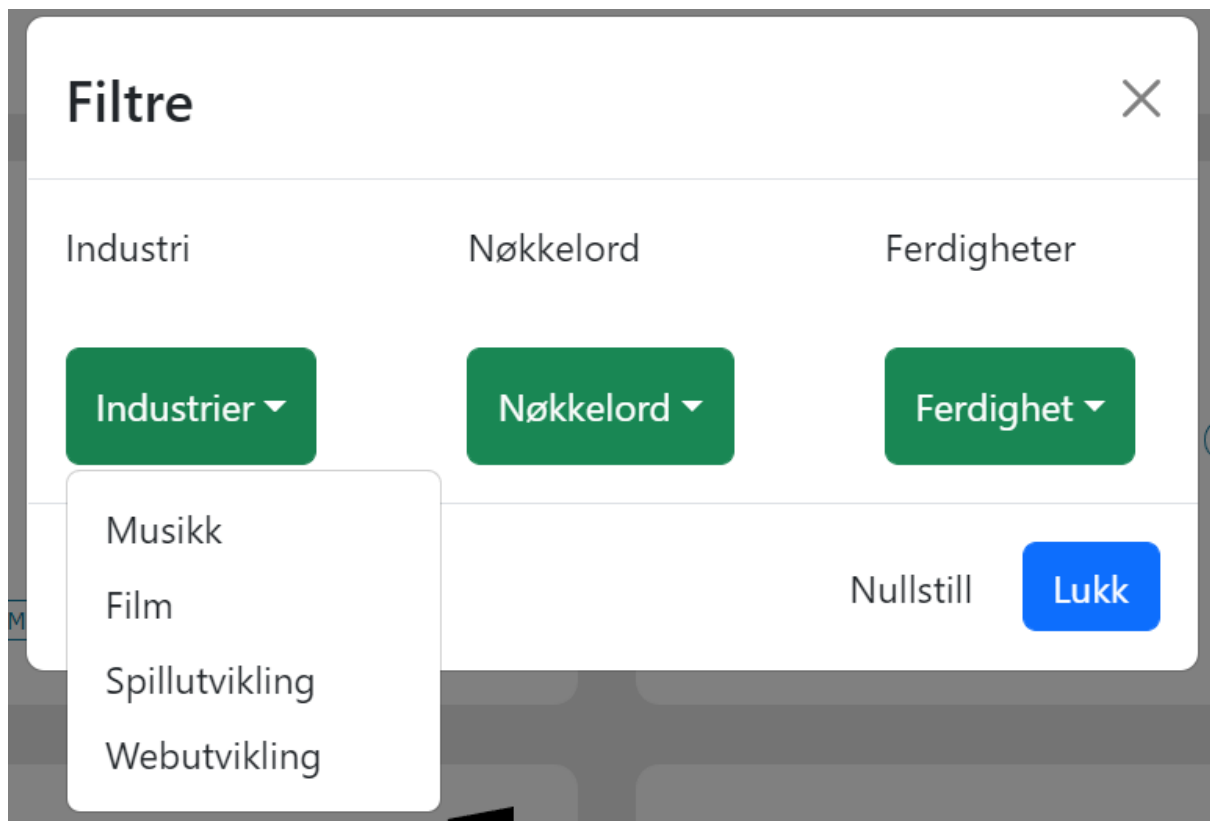

This application has Norwegian user interface

Home page

When a user goes to the link of the website, the first thing that they are presented with is the home page. Here every project in the app is listed, and the user is free to browse through them.

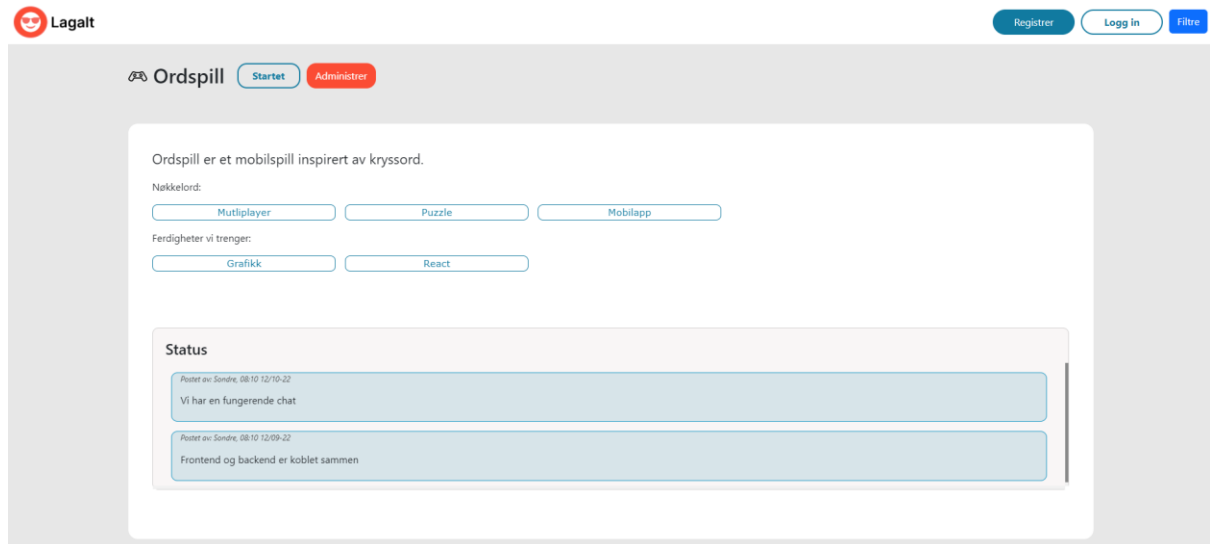

The filter-button on the top right is there so the user can filter what projects are displayed on the site. When the button is clicked, this popup will show:

In the filter-popup the user can change between industries, keywords or skills. When the user is happy with the choices made, the blue button on the bottom right is clicked to apply the filter.

Project info

Any user of the app can click on a project of choice, and see the information of that project. Here the status of the project is displayed, as well as the keywords and skills for the project. On the bottom a status-board is displayed. This is updates contributors of the project has shared with everyone.

Login/Register

On the top right there is the option to log in or register. The user is then sent to keyclock. Keyclock also provides the option to log in with a github or google account. The image below shows the registration form.

Profile page

The profile page has a few options, you can write a portfolio and a description as well as adding your skills to the account.

The screenshot shows a web interface for a profile page. At the top left is the 'Lagalt' logo. At the top right are buttons for 'Logg ut', 'Alternativer', and 'Filtr'. The main content area is titled 'ulriklun'. Below the title, there is a section 'Mine ferdigheter' with two buttons: 'Legg til ferdighet' and 'Fjern ferdighet'. Below this is a 'Portfolio' section with the subtitle 'My accomplishments' and a large text input area. Below that is a 'Min beskrivelse' section with the subtitle 'My description' and another large text input area. At the bottom left, there is a 'Profil status:' label and a button labeled 'Offentlig'. At the bottom center is a blue 'Lagre' button.

If you want to add skills to the account, the image under shows what you are presented with if you click the button to add skills. Here you pick all the skills you want to let others know that you have, and click save skills when you are done.
